

The New Blue Dress

Introduction

The New Blue Dress is a motivational story where we see how a simple gift from a teacher to her student has changed the life and existence of the entire community.

The little girl in the Gates Avenue was very untidy but very hardworking and polite. Seeing her dirt, the teacher was disheartened and gifted her a new blue dress and asked her to come to the school in a tidier manner the next day.

The parents were overwhelmed to see their daughter so pretty. They never knew they had a pretty daughter until they saw her in clean new blue dress. The parents then started cleaning up themselves and their surroundings. And in this way, the process of cleaning the Gates Avenue started.

We would see in the lesson, how the simple act of a teacher can actually create a chain of thought and changes the entire society miraculously. Also in this lesson, we would remind ourselves that good behaviour can actually influence others positively.
