

# **C. V. Raman, the Pride of India**

## **Introduction:**

C. V. Raman, the pride of the world of science and is also the Pride of India. In this lesson, we would learn about C. V. Raman and how he reached the great height of discoveries. It is truly said that, if one has the will, one finds the way. Such was the thing with Raman. He did not have much sophisticated equipment in his laboratory yet, he had made wonders to the world of science. He never confined himself to the laboratory or to the equipment he possessed. Rather, he had made use of whatever he had. We shall see, how he used his hard work, intelligence to the optimum level and made the discovery of Raman Effect in this lesson.

We shall also learn about the Compton Effect.
